

Institute for Reporters' Freedom and Safety

A photograph of a Space Shuttle launch at night. The shuttle is illuminated from below, creating a bright glow and a large plume of white smoke at the base. The shuttle is positioned vertically in the center of the frame. On either side of the shuttle, there are tall, thin, red structures that appear to be part of the launch pad's support system. The background is a dark, clear night sky. In the foreground, the dark silhouettes of palm trees are visible on both the left and right sides, framing the central scene. The overall mood is dramatic and powerful.
